

# RUSSIAN MASTERS BALLET *camp*

## PRESS RELEASE

**"THE REFERENCE IN BALLET INTENSIVES, RUSSIAN MASTERS BALLET CAMP,  
INCORPORATES IMPORTANT IMPROVEMENTS AND RENOWNED TEACHERS FOR 2017"**

From 10 to 30 July, 2017 in Alicante. Thanks to the outstanding success and prestige obtained in the previous years, Russian Masters Ballet Camp stands internationally as a reference to which the most outstanding ballet institutions in the world have high regard. This growth and evolution has led them to extend their professional connections to all continents, making it possible to multiply exponentially the opportunities of their students who, through Russian Masters, can choose, if prepared, the best institutions and ballet companies in the world.

An authentic talent launch that has managed to bring together the most outstanding and valued professors in each field, thanks to the high standards of quality, methodical seriousness and professional commitment offered. Thus, the best teachers of the prestigious Vaganova Academy, for example, all opt for this intensive that brings together, after auditions, the great promising students of ballet coming from more than 30 countries around the world, turning Russian Masters In the most international course with the best professional environment. For three weeks the students receive classes of all the most important techniques in the training of a classical ballet artist: classical dance, repertoire, character dance, acting and other vital subjects such as ballet history or professional skills development classes. All in a luxury residence, the Complejo San Juan, located on the fabulous beaches of Alicante. The conservatories of Novelda and Alicante are the places chosen for the classes, all with air conditioning and facilities of first level.

As always, at the end of the course the lucky students will have the opportunity to share stage with the best soloists of the Mikhailovsky Theater in the Stars Gala in front of

one thousand spectators in the Principal Theater of Alicante. In 2017 also incorporate major improvements and new talents as the teacher of boys group Andrey Yermolenkov, considered unanimously the best specialist in male technique at the Vaganova Academy.

They are aware that they have set the bar very high, the unequivocal proof of this are all the students who, thanks to their experience in Russian Masters, already shine in the best schools and ballet companies of the world: Evgeniya Victory González (dancer at Mariinsky Theater ) Valerie Macías, Jorge Palacios and Raúl Ferreira (students at Vaganova Academy), Paulina Lopez, Hugo Martínez, Ana Maria Espadas and Ana Maria Hernández (students of Staatliche Ballettschule Berlin), Yaiza Toledo and Abril Vidal (students of John Cranko Stuttgart) ... And a long etcétera.

By 2017 they have already awarded important scholarships to students of 2016: 1 scholarship of 100% of the course and 6 scholarships of 50%. Even so, they have increased the quota of aid for this year and will distribute **more than € 50,000 in scholarships** to all who come to the Spanish auditions. All, of course, in their line of social assistance and fair prices. In their own words: "We will continue to demonstrate that professionalism can transcend profit, so entrenched, unfortunately, in our discipline. The ballet deserves better, students deserve to be helped, not exploited. And above all they deserve professional training and advise of their abilities and skills. The dream of any child should not be allowed to be commercialized. In Russian Masters we have drawn a line made only of truth and honesty to show that a sincere valuation based on professionalism and in the sector itself is better than a sweet, greedy lie".

"In 2017, we will put our hearts into every detail so that all students can optimize their abilities. We want to bring the authentic and successful Vaganova method, with its best representatives, to more students so that they discover that dreams can materialize, that there is another way of doing things. We will go further because we have optimized the programs and we count with more and better

teachers. We have expanded our professional network that already reaches all continents and includes the best academies, schools and ballet companies, to give output to the dreams of our students who are our true engine."
